Announcing our Spring 2009 Class & Events which can be viewed at the ***Rocky Mountain Chapter (RMC) [web site](#)***. We are working hard to arrange with two premium speakers for our special lecture series in the spring. We hope to secure the services of ***Bob Adams*** and ***Mary Ann Davis***, both seasoned investors and brilliant speakers.

As some of you know, the ***RMC Board*** has had difficulty over the past few years finding facilities to hold meetings and training sessions at a price we all can afford. That, coupled with the distances required to travel to reach our

members in our vast geographical area has caused us to look at different ways of reaching our members.

This spring, you will have the ***new option*** of participating in classes and other events by way of the internet using our new on-line option called, ***GoToMeeting (G2M)***. This will give those who live far from the classroom the chance to participate almost as if they were in class. It will save many both time and money in travel costs. ***There will be a very modest surcharge of \$5 for the G2M option since we must pay for leasing the software.*** Others, within ready driving distance of our ***Indian Tree*** classroom location may continue to elect that option so they can see and interact with the instructor face-to-face.

are always looking for new folks to join our team. If you are interested, have questions, comments or need additional information, please contact us using the following email link: [Chapter Contact](#)

Whichever way you prefer, it will be your choice. All that's needed to participate in these on-line events is a **high-speed** internet connection, **Voice Over Internet Protocol (VOIP)** capability on your computer, speakers or electronic headset. *If you can hear music played on your computer you have VOIP.* Almost all computers have this. *And, it works with both PC's and Mac's!*

Free Limited Trial Offer – Stock Study Class – Pepsi This trial class will be held on **January 19, 2009, at 6:30 p.m.** in the evening. We are offering this first class **FREE** only to the first **24 people** to sign up. Sorry, but for this first test class, attendance will be limited to 24 people. **In return for this class, participants will be expected to provide opinion through a short survey to be completed after the class has concluded.**

The January 19th class will be a Stock Study of Pepsi (PEP) and will be hosted by Karen O'Boyle. The stock study on Pepsi (PEP) will be using the SSG format, so it is recommended that participants complete their own study of PEP before the class. **To register for this limited offer, email us at: [G2M Trial](#)**

In addition to great speakers and a new way to attend classes, be sure to check out our all **new Second Saturday Stock Market (SSSM)**, a fun and engaging way to learn while completing a **Stock Selection**

Guide (SSG) in a group setting using **Toolkit**. You can also suggest a stock or bring your own **SSG** . . . Continental Breakfast is included!

Is your Club looking for New Members? Are you looking for a Club? The SEC prohibits any overt recommendation of clubs to individuals or individuals to clubs. However, we can and do facilitate helping clubs and individuals making contact in three ways. To find out how, visit our web site.

Best Wishes for a Great 2009! On behalf of the directors of your **Rocky Mountain**

Chapter, I'd like to wish you all a very **Merry Christmas and a Happy and Prosperous New Year.** The market and our

portfolios may have suffered this past year with paper losses, but downturns don't last forever and we can look forward to a brighter day. Meanwhile, the wise continue to invest in sound, well managed, growing companies at a good, attractive price. Right now, there are many good opportunities. Don't let them pass by because of a temporary panic in the market. Yours for Better Investing, **John Rogers, President**
