Join us to Discuss PETS . . . Saturday, January 9th, 2010

Attend In Person at Indian Tree Golf Course Clubhouse

or from Home Using GoToMeeting

We've just come off one of the worst decades for investors. The *S&P 500 index* is down some 23% from where it started ten years ago. If you include dividends, the total return for the decade is a positive 15%, but that is still far below where we want to be as investors. So, the *"buy and hold"* the index mantra hasn't worked in a decade. However, as *BetterInvestors* applying our time tested investing principles, we should have done much better. For example, we will be discussing and preparing an *SSG* for *PetMed Express, Inc. (PETS)* whose outperformance over the past ten years is shown in the chart below.

So join us this coming Saturday . . . January 9th from 9am to 10:30am either in person at *Indian Tree Golf Course Clubhouse* (Complementary Breakfast Included) or from home using *GoToMeeting* as we discuss *PETS* in detail and prepare an *SSG* base on the consensus judgment of the attendees.

And don't forget to mark you calendar for our *Spring Seminar on Saturday, April 17th, 2010*. We are lining up some great speakers for this day long educational event so stay tuned.

Your Rocky Mountain Chapter wishes you the very best for the coming year! Check our website,

John Rogers

President, Rocky Mountain Chapter

"Approaching the investment world from a focus on individual securities, rather than wishfully relying on broad historical relationships to come true, is probably the most effective way to deal with the trying and uncertain environment ahead. And just as with the weather, it will take patience to wait this storm out, so we can enjoy summier days ahead." – *The Praxis*
